

Air Valve Diffuser

RONDO

Description

Made from eco-friendly pure gypsum, these diffusers are designed to be installed directly into plasterboard ceilings or walls. They can be painted the same colour as the surface for a smooth, seamless finish. Every detail has been carefully considered to create a clean, modern look.

Features

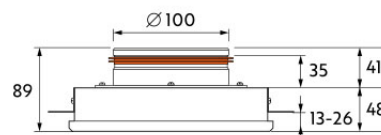

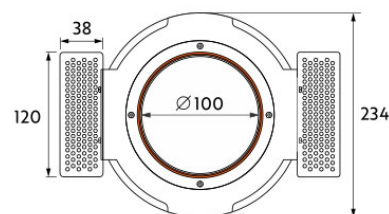

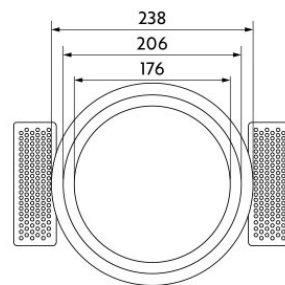

- 1) Pure high-quality gypsum frame.
- 2) Standard duct connections (100, 125, 150, 160 mm).
- 3) Balancing damper.
- 4) Groove for filler locking
- 5) Anti-vibration gasket between the frame and the connector.
- 6) Aerodynamic convex shape to reduce air vortices.
- 7) Convenient fastening system for 1 or 2 layer plasterboard.
- 8) Reliable magnetic holders hold up to 10.75kg

Dimensions

Suitable for all type air duct systems with standard connection diameters: 100mm, 125mm, 150mm, 160mm.

Standard duct connections (100, 125, 150, 160 mm).
