

Backdraught Shutter

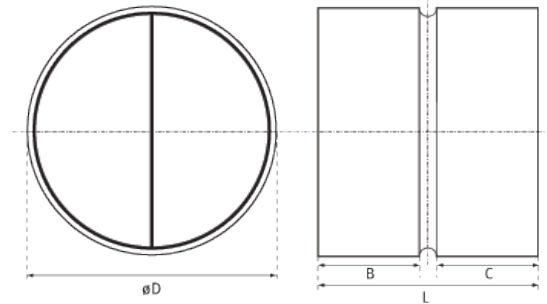

LRSK

Description

Backflow draft damper for round ducts, made of galvanized steel sheet. The damper wings (swinging) are closed by a spring, which enables installation in any position. Used to allow flow of air in one direction only.

Dimensions

Symbol	øD [mm]	L [mm]	B [mm]	C [mm]
100	100	88	38	38
125	125	88	38	38
150	150	88	38	38
160	160	88	38	38
200	200	88	38	38
250	250	128	59	59
